Leg Ulcer Ergo Kit

The Leg Ulcer Ergo Kit has now established itself as the number one ergonomic aid for District Nurses to assist with the application of leg ulcer dressings. The multi-award-winning Norwich Back Pal Kneeling Stool is now being used by over 1000 District Nurses in the UK.

"The staff who have tried the limb support with patients have found it very beneficial and the patients have told us that it is much more comfortable too"

AM, NHS Clinical Ergonomics Advisor

Epidural Positioning Device

Increase your efficiency in operating rooms, labour and delivery suites and anywhere epidurals and spinals are performed. The Epidural Positioning Device (EPD) allows you to position patients correctly and comfortably by encouraging cervical, thoracic and lumbar flexion while maintaining a solid and stable position.

Simple adjustments make the device appropriate for a wide range of body sizes. Designed for improved efficiency, this tool allows staff to safely position patients without additional assistance.

New : Examination Couches

We have introduced a new range of electric, hydraulic and portable examination couches.

The electric and hydraulic couches offer a range of ergonomic features that assist the practitioner to position and examine the patient. The couches also have features to improve infection control. We have an excellent short video on our website

The portable couch range offers excellent value for money combined with lightweight portability, strength and durability.

All prices and product codes are on our website.
